

Webinar series in Palliative and End-of-Life Care Research

# Methodological Development & Innovation

In this three-monthly webinar, the VUB-UGent End-of-Life Care Research Group and the Public Health at the End of Life Research Group of the Amsterdam UMC invite experienced **international** speakers to present health services, public health and clinical research that uses innovative research methods. The aim is to exchange and grow knowledge on a diverse range of methods used in these different disciplines and explore their potential for improving and innovating future palliative and end-of-life care research.

**For whom?** For everyone interested in innovative research methods in palliative and end-of-life care. The webinar is in English and open to a national and international audience.

Save the dates:

- Thursday 11 May 2023: Thematic analysis by prof. Victoria Clarke
- Thursday 29 June 2023: Log data and machine learning by prof. Maurice Mulvenna and Courtney Potts
- Thursday 21 September 2023: Anthropological and sociological methods by prof. Erica Borgstrom
- Thursday 14 December 2023: Discourse analysis and tiredness of life by prof. Els van Wijngaarden

Webinars take place from 16h to 17h (CET).
